truu original water.
The most original, purest water on the go.

Product brochure for the truu mobile 3, the travel-ready high-end water filter system in an aluminum case. Contains benefit arguments, the 9-stage filter system, pricing models, and technical data.

NEW: The new truu mobile 3 eliminates 99.99 % of all germs thanks to the highly efficient UVC germ barrier truu barrier®.

Water is an indispensable component for our health and well-being. The purer water is, the better it is for our body. But far from everywhere we want to go does drinking water have the quality it should have. truu original water is water, as pure and unadulterated as it was in times when the environment was still untouched.

truu original water - Water in its purest form

It is free from harmful substances and residue-free healthy. With truu mobile 3, the travel-ready water filter system, you can enjoy the purest, most original water wherever you are, whether in your vacation home, on your boat, or in your motorhome. Don't go without the best water even while traveling - truu original water.

The truu quality guarantee. Water, as natural as possible.

The truu mobile 3 is not only highly advanced, but also a holistic and sustainable high-end filter system. It frees drinking water down to the finest molecular level from contaminants and environmental toxins. Heavy metals, medication residues, hormones, pesticides, and even PFAS - the so-called forever chemicals - stand no chance. After molecular filtration, water flows exclusively through ultra-pure V4A stainless steel to completely prevent recontamination by microplastics. Following nature's example, the water is then swirled and

energized as if in a mountain stream.

truu mobile 3 in mobile use on the boat

truu mobile 3 - The third dimension of purity for the mobile lifestyle.

- 9-stage pre- and main filter technology filters 99 % of all contaminants
- 99.99 % of all bacteria and viruses are filtered out
- Plug & Tap - flexible filter technology for on the go
- Including delivery*
- V4A stainless steel hose
- Compact mobile unit with innovative truu quattro pre-filter
- Travel-ready integrated in aluminum case
- Connectable in a few simple steps
- 24 volt technology suitable for all power grids

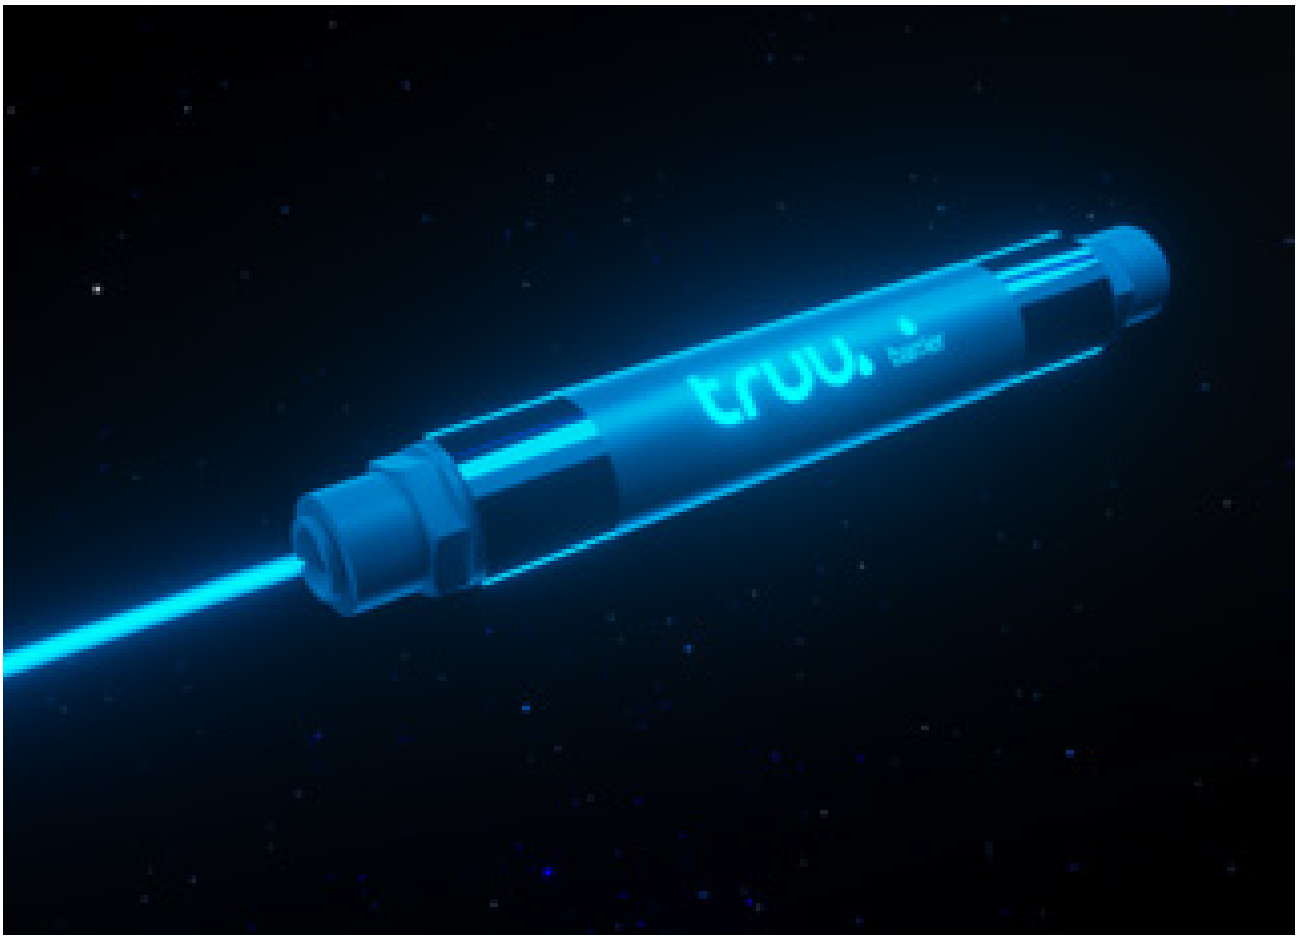

- Sustainable through lighter and durable materials
- Easy maintenance thanks to truu fast connect®
- 30 years manufacturer warranty
- 30 years update warranty
- High-tech Made in Germany

Compact mobile unit in aluminum case

Good to be truu. Good for your health. Good for the environment.

truu barrier® UVC germ barrier - 99.99 % germ elimination

- Perfect protection thanks to truu barrier® UVC germ barrier
- Contaminant-free water
- Highly bioavailable
- For optimal metabolism
- Outstanding taste
- Saves thousands of plastic bottles
- Eliminates transport routes
- Energy-saving system

truu mobile 3 in detail. The 9-stage high-end filter system.

1. 0.5 µm sediment filtration filters sand, sludge, rust and other coarse particles up to 0.005 mm in size as well as most bacteria and viruses.
2. Purification through ultrafine, baked activated carbon: 99 % of the following substances are removed: odours and other organic substances, THM, TEE, chlorine, ozone, pesticides,

hydrogen sulphide.
3. Limescale converter: A granule pearl additive in the activated carbon ensures that calcium carbonate dissolved in the water crystallises and can no longer settle.
4. Lead barrier: An additional additive that protects against highly harmful lead deposits, for example from old pipe connections.
5. truu barrier® UVC germ barrier: The new, highly effective technology deactivates bacteria, viruses and germs by 99.99 %.
6. High-tech molecular filtration: >99 % of the following substances are removed: bacteria, viruses, nitrate, arsenic, lead, cadmium, sodium, sulphate, calcium, magnesium, phosphates, chlorides, fluorides, radioactive substances, dioxins, organic substances, THM (trihalomethanes), PFAS (perfluoroalkyl chemicals), pesticides, industrial chemicals, pharmaceutical residues, oral contraceptives, drug residues.
7. Odour, taste neutralisation and pH value optimisation through acid-washed bio-activated carbon: Residual substances that are in the water through the house pipes are neutralised.
8. Restructuring through special ceramic with EM technology: The original crystal structure of the water is restored.
9. Energisation in V4A special hose: Specially developed design enables natural water flow through 3D micro-swirling. The water's property of supplying energy is restored.

IMPORTANT: After the 6th filter stage, material transition to V4A stainless steel.

truu original water on the go. The flexible pricing models.

Model | Price

Single retail price (DE / AT / CH / LI delivery incl.) | DE: 5,348.00 € // Rest EU: from 5,398.00 € // CH / LI: 5,648.00 SFr *

Financing, monthly instalment | from 94.00 € **

Leasing, monthly instalment | from 98.00 € plus VAT ***

** incl. 8.1 % VAT for CH / LI ** With financing over 6 years. Standard offer subject to credit check. *** With leasing over 5 years. For individual financing, you can also speak to your own bank.*

The truu mobile 3 system. Dimensions, weights, connections.

Interior view with 9-stage filter system and digital control

- Flexible connections for inlet and outlet
- Connection directly to water line
- Operation without electricity possible
- 220 mm x 390 mm x 550 mm
- 16.1 kg weight
- 9 bar after the pump
- 120 W high-performance pump*
- 150 W max. total power consumption*
- 7.2 W power consumption UV lamp*
- 100-240 V AC; 50/60 Hz (external power supply)*
- 24 V DC; 5 A; 80 W (internal)*
- Suction mode

* Power consumption only during the production of truu water.

truu original water. An excellent recommendation.
